## What is a Volunteer Relationship Advisor?

VRAs are a vital part of the Healthy Relationship Programme in Hartlepool. We know that a strong parental relationship is very important in ensuring that children have the best start in life. Sometimes parents may need a space to talk about what is happening in their relationship and this is where the VRA comes in. VRAs work with individuals in the community, act as a resource for parents to talk about their relationship difficulties and to provide information about how people can get the help they need.

Volunteers are a valuable resource and can really make a difference to the lives of children by supporting their parents.
